PROFESSIONAL EXPERIENCE

Travel Sales Consultant | Oct 2025–Dec 2025
Global Corporate Tour

- Assisted clients in planning domestic and international travel by recommending customized tour packages based on budget and preferences.
- Handled customer inquiries via calls, emails, and in-person meetings, converting leads into confirmed bookings.
- Achieved consistent sales targets by upselling value-added services such as travel insurance and sightseeing packages.
- Maintained strong client relationships to ensure repeat business and positive customer feedback.

PROJECTS

ATM Simulation System | Python
- Built a Python-based ATM simulation featuring balance checks, deposits, withdrawals, and transaction history.
- Focused on clean logic, modular design, and user input validation

Sales Data Analysis | Excel
- Analyzed and visualized sales data using Excel, pivot tables, and charts to extract actionable business insights.
- Created dashboards and reports for performance tracking and decision support.

Hospital Data Analysis | SQL & MySQL
- Analyzed hospital admissions and doctor performance using SQL queries and aggregations
- Generated insights and reports to support hospital operations and decision-making.
